About Us

Established in 2012, **PS Travel Point Tours Pvt. Ltd.** is run by dedicated professionals with full commitment to provide the best quality services to the travelers. We love to travel, see the sights, experience different cultures and enjoy the beauty of nature. We arrange the accommodation, travel, trekking, ticketing, jungle safari and rafting. Today we are happy to say that we are going one among the leading travel companies in Far West.

PS Travel Points staff makes your arrangement with modern professionalism combined with traditional Nepalese hospitality. Our members travel a lot themselves and it has made sensitive about the welfare of our staff as well as the impact of tourism on the environment. We provide expert and friendly arrangements for all types of adventure travel and trekking in Nepal, India and Tibet. We also provide bird watching, cultural trips, project research and other special activities of interest.

Far Western

Far West Nepal is undoubtedly the newest tourist destination in Nepal. One of the development regions among five of Nepal, this region is still untouched and unexplored, but holds some of the most potential attractions, ranging from the largest herd of Swamp Deer in Asia at Suklaphanta National Park to the majestic beauty of the alpine meadows, forest and lakes at Khaptad, to picturesque off the beaten trails of mountain range such as Mt. Api and Mt. Saipal. The culture is also rich and relatively untouched, from the nomadic Rauts to the Rana Tharu, who travelled all the way from Rajasthan when the Moghuls invaded India. There is much folklore and ancient stories passed on from generation to generation well worth a listen while travelling here. Below are some of the itineraries which will take you from the hugely diverse flatlands to the majestic mountains with rich culture and vegetation reroute.

Nepal

Nepal is a country of highly diverse and rich geography, culture, and religions. The mountainous north has eight of the world's ten highest mountains, including the highest, Sagarmatha, known in English as Mount Everest. The fertile and humid south is heavily urbanized. It contains over 240 peaks more than 20,000 ft (6,096 meters) above sea level. By some measures, Hinduism is practiced by a larger majority of people in Nepal than in any other nation. Buddhism, though a minority faith in the country, is linked historically with Nepal as the birthplace of Siddhartha Gautama, who as the Buddha Gautama gave birth to the Buddhist tradition.
